Mad Science's Guide to the Galaxy

8-week Program*

*substitutions may occur

PLANETS & MOONS:

Begin a voyage through the solar system. Impersonate the planets to compare their sizes and distances from the sun.

SPACE TECHNOLOGY:

Explore space-related technologies. Guide a laser through a maze and use radar technology to find hidden mountains.

SPACE PHENOMENA:

Explore phenomenal events in the night sky! Create impact craters, play satellite tag, and watch a model comet.

UNDERWATER EXPLORATION:

Learn why astronauts train underwater! See what life is like under water, and see real preserved specimens.

POLICIES

- Classes may be cancelled due to low enrollment. If class is canceled due to exigent circumstances (e.g. inclement weather), we will try to reschedule, but cannot guarantee a make up class.
- A full refund (less a \$10 processing fee) will be given if requested in writing and received by Mad Science within 5 business days after the first class. Email info@madscienceofdc.com
- MS is not responsible for your child prior to and after the scheduled class. Please make sure you pick up your child **on time.** We do allow a 10-minute grace period, and will charge you \$1/minute thereafter based on the school clock. This should be paid directly to the instructor.

LIVING IN SPACE:

Go on a mission to see what is needed to live in space, learn about training techniques, and help build a model space station!

SPACE TRAVEL:

Launch an investigation of rocket propulsion. Race balloon rockets and devise a balloon-powered rocket car.

GREAT GRAVITY:

Step into the shoes of famous inventors to try for yourself the experiments that led to great discoveries.

ENERGY BURST:

Explore the energy of motion, discover the difference between potential and kinetic energy, and how they are conserved.

Register online at www.madscience.org/dc
Or fill out form and return to school

Day: Wednesday **Time:** 3:30 - 4:30 PM **Start Date:** 10/12/2011 **End Date:** 12/14/2011 **No Class:** 11/9, 11/23
